concussion during practice or com	petition. US Youth So	ccer and Staff want to make you aware
of this possibility and signs and syn and/or treatment.	nptoms that may arise	e which may require further evaluation
It is common for a concussed child	or young adult to hav	ve one or many concussion symptoms.
There are four types of symptoms:	physical, cognitive, e	motional, and sleep.
If way a day abbay ay aga abayba ba ab		
	•	nptoms, or there any other symptoms daughter, you should consider seeking
immediate medical attention:	onduct of your son of	daugnter, you should consider seeking
- Memory difficulties	- Neck pain	- Delicate to light or noise
- Headaches that worsen	- Odd behavior	- Repeats the same answer or
- Vomiting	- Fatigued	question
- Focus issues	- Irregular sleep	- Slow reactions
- Seizures	Patterns	- Irritability
- Weakness/numbness in	- Slurred speech	- Less responsive than usual
arms/legs	Sidired Specell	Less responsive than asaul

Please take the necessary precautions and seek a professional medical opinion before allowing your daughter or son to participate further. Until a professional medical opinion is provided, please consider the following guidelines:

- refraining from participation in any activities the day of, and the day after, the occurrence.
- refraining from taking any medicine unless (1) current medicine, prescribed or authorized, is permitted to be continued to be taken, and (2) any other medicine is prescribed by a licensed health care professional.
- refraining from cognitive activities requiring concentration cognitive activities such as TV, video games, computer work, and text messaging if they are causing symptoms.

If you are unclear and have questions about the above symptoms, please contact a medical doctor or doctor of osteopathy who specializes in concussion treatment and management.

Please be advised that a player who suffers a concussion may not return to play until there is provided a signed clearance from a medical doctor or doctor of osteopathy who specializes in concussion treatment and management.
